# VISION MISSION

Founded in 2005, Hongjia Glass is a global producer of high-end glass products for a range of purposes based in Shenzhen, China.

We specialized in architecture and decorative glass. Whether you're looking for glass products for an exterior building or need high quality, customized products for interior designs, Hongjia Glass is here for you. With excellent connections and access to a large number of factories, our main port is Shenzhen. Not only we can produce high quality goods meet clients' requirements but also can deliver goods on time within the budget.

Our goal is to provide reasonable prices, best quality and service to customers, and we sincerely establish a good partnership with customers all over the world in the future to achieve win-win situation!

# OUR VALUES

We at Hongjia Glass Architectural can guarantee the highest quality of our services and products from our experience, professional knowledge, and technical support teams.

## 1 INDUSTRY EXPERIENCE

We have more than 17 years of industry experience

## 2 CUSTOMIZED SOLUTION

From a professional point of view for your indoor and outdoor glass Product usage provides design and installation advice

## 3 ENGINEERING SERVICES

Understand your needs and cooperate with you to complete the design

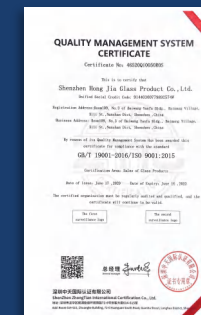

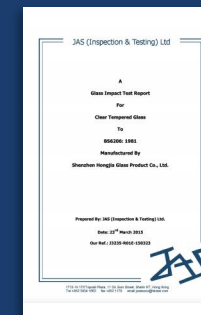

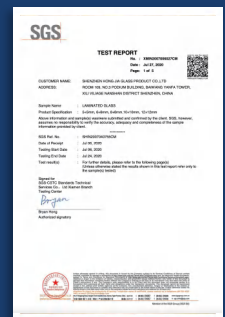

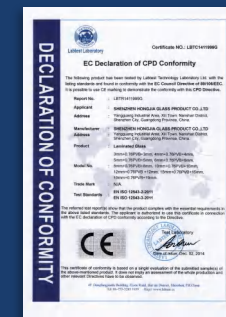

## 4 SALES TEAM

Provide professional patience to customers 24 hours a day, 7 days a week

# COMPANY QUALIFICATIONS

The glass we produce matches the international standards, such as CE or ASTM certification, and has also been certified by ISO quality control, which requires strict quality control on every piece of glass we produce.

# ORDERING PROCESS

Our goal is to understand the type and purpose of glass you would like to use and the design intent you wish to achieve to fit your budget. In response to your requirements, our professional sales staff will recommend suitable glass products to you.

By providing approximate quantities and sizes, a more accurate price and delivery time can be formulated. Once your approval is received, we will proceed with production, processing, packaging and delivery accordingly.

A value engineering service is also available.

## 1. Inquiry & Quotation

Our professional sales representative will provide our expertise and suggestion based on your inquiry. We also offer customization if you have your own preferences. Preliminary a quotation will be provided at this stage.

## 3. Place Order & Payment

After reviewing the prototype, we will need to finalize the design, quantity, sizing, and detail. Initial payment is required at this stage. We provide various payment methods making your order more flexible.

## 4. Production & Delivery

Production based on the final design selection and specification. Our certified inspector will ensuring our product quality guaranteed. Once the final payment has been made, product will be ready for shipping. Shipping is available for sea freight, air freight and express delivery. We do carefully pack every product to ensure their safety on the way.

## 5. Post Sales Services

We put our customer as our top priority and your valuable feedback are much appreciated. We believe long term partnership build on our excellence customer service.

## SELECTED PROJECTS

### MUSHRIF MALL

Abu Dhabi, UAE

Mushrif Mall Abu Dhabi spread over 180,000 square meters with 3 levels complete with retail shops, F&B dining and amenities offer a rejuvenating sanctuary for shoppers of all ages. Qubba, symbolizing the vault of heaven, has been incorporated into the design of the atrium. With external curved tempered glass and blue PVB lamination, Hong Jia's glass complements the dome shape well with its colors and withstand to UV exposure.

#### Glass Uses :

Bend Tempered Glass with Large Arc Length  
Environmental Low-e Glass  
Insulated Glass (Double Glazing)  
Colored Laminated Glass (Colored PVB)

### COMMONWEALTH PARLIAMENT OFFICES

Sydney, Australia

The Sydney Commonwealth Parliament Offices (CPO), located across three levels at 1 Bligh Street, provide office accommodation for Australian government Ministerial and Parliamentary staff while visiting NSW and also provide an important gateway for Parliamentarians when meeting international dignitaries. Hong Jia's curved laminated glass has been treated with extra clear treatment complementing the timeless interior design which influenced by the unique nature and character of Sydney, the inspiration from natural daylight, transparency, connection and community.

#### Glass Uses :

Extra Clear Curved Laminated Glass  
Curved Mirror

## SELECTED PROJECTS

## MUSEUM OF THE FUTURE

Dubai, UAE

A vision to look beyond the horizon and to achieve above the ordinary brought Dubai's most iconic landmark to life. The Museum of the Future in the torus-shaped represents mankind's ability to innovate & construct the limits of today's engineering & construction methodology. We believe that the entrance should be secure and well-protected, and that is why we offer our best glass in jumbo size treated with low iron tempered lamination and heat soaked. This provides an extra layer of protection from adverse weather conditions as well as reducing noise from the urban environment.

### Glass Uses :

Glass Fins

Jumbo Size Low Iron Tempered Laminated Glass with Heat Soaked

## ST. BOULEVARD 601

Melbourne, Australia

The St. Boulevard project focuses on enclosure and exposure, a juxtaposition of opposing ideas, featuring an all-encompassing landscape and the dance of its fluid veil of privacy. There is a contrast between the straight façade on the front and the stepped down volumes at the back, creating a scalloped curve. With Hong Jia's well-executed customization screens and cutting-edge window technology, light, shade, ventilation and privacy can all be customized to the client's needs. The aim is to create a language of high quality, occupant-controlled minimalism that rejects frivolity and excess.

### Glass Uses :

Glass Railing

Extra Clear Tempered Glass PVB laminated with Grey Reflective

## SELECTED PROJECTS

### RIXOS QETAIFAN HOTEL

Doha, Qatar

Rixos Doha Qetaifan Hotel on the Qetaifan Island North project offering a luxury resort environment shaped by the historical, natural, and cultural influences of Qatar. With the soccer world cup taking place in 2022, this hotel is playing a very important platform to showcase Qatar as a tourist destination thanks to its unique leisure offering. Within the organic shape building, Hong Jia offers variations of Low Iron Tempered Glass in straight and curved shapes, laminated with decorative Aluminium and Mesh material in between the glass.

#### Glass Uses :

Glass Railing  
Straight and Curved Low Iron Tempered Laminated Glass  
Alum. Mesh

### RUBY COCO HOTEL & BAR

Düsseldorf, Germany

The rooms offer antiques dating back to Coco Chanel's lifetime, along with original details telling stories from the fashion industry. In addition to offering great shopping opportunities, Ruby Coco is conveniently located in Düsseldorf's inner city, where you will find the most important sights as well as the best bars and restaurants. Its unique design incorporates accents of Parisian chic and artistic contrasts, while Hong Jia's decorative antique mirror, coated with a groove pattern, blends seamlessly into the city's lean luxury and characterful surroundings.

#### Glass Uses :

Antique Mirror With Groove Pattern

## SELECTED PROJECTS

### KUWAIT EDUCATION HEADQUARTER

Kuwait City, Kuwait

The headquarters building of the Ministry of Education in Kuwait is one of the most striking headquarters in the country. The design of this building is inspired by the long maritime history of the Kuwait Shipyard. Two curved office buildings are constructed in an overlapping manner, creating an internal courtyard that evokes the image of a single-masted triangular sailboat sailing on the sea. The interior decor extensively employs transparent glass partitions to promote teamwork and communication while offering an open and contemporary working environment.

#### Glass Uses :

Partition Glass wall

18 different types of glass used for glass walls and glass partitions, approximately 30,000 square feet.

### OMAN TELECOMMUNICATIONS HEADQUARTERS

Sultanate of Oman, Muscat

The headquarters of Oman Telecommunications is the new iconic building of Oman's first integrated telecommunications service provider. It proudly showcases contemporary design while paying homage to Oman's traditions through the design concept of 'Visual Energy'. This new landmark in Muscat stands boldly amidst the landscape, with its expressive and daring design. The illuminated form of the building takes inspiration from the majestic and flowing contours of the traditional Omani female leader, Al Massar.

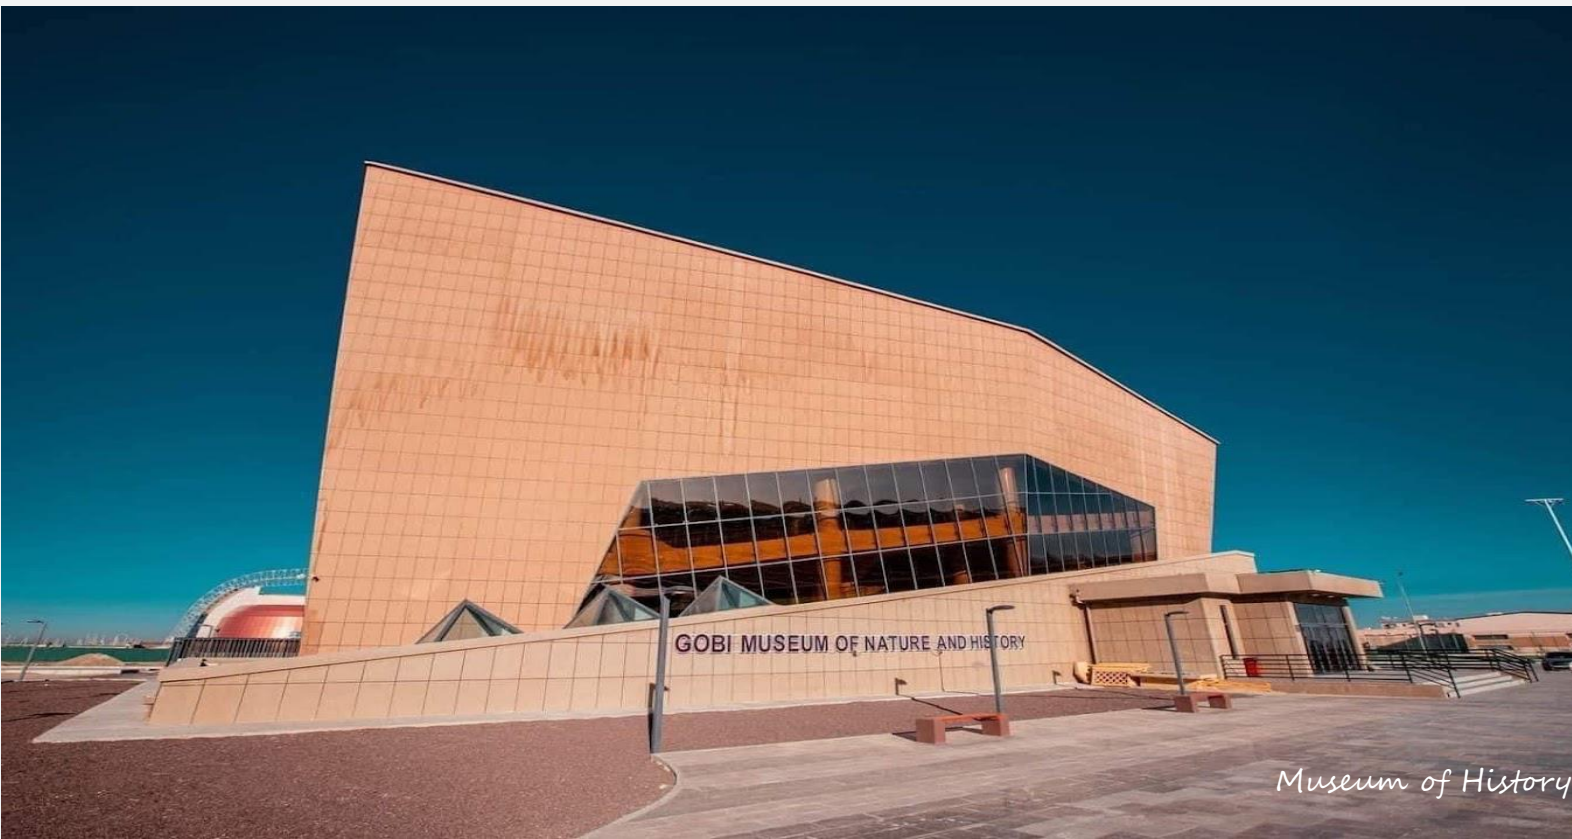

#### Glass Uses :

Railing Stair handrail

19mm clear flat/bent tempered glass

## SELECTED PROJECTS

### GOBI MUSEUM OF NATURAL HISTORY

Dalanzadgad City, Mongolia

The Gobi Museum of Natural History is located in Dalanzadgad City, Umnugovi Province, Mongolia. The museum's main hall houses over 4,000 exhibits and artifacts, and is equipped with world-class facilities. Since its opening, the museum has attracted 25,000 visitors within three months.

#### Glass Uses :
